

Happiness Finder

Finding Four-Leaf Clovers while Supported by AI

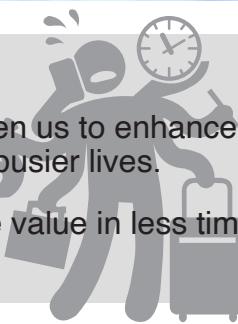

Koshizuka Laboratory
The University of Tokyo

Collaborating artist:Sputniko!

"Happiness Finder" is a unique system that combines digital technology with the symbolic four-leaf clover to enrich emotional well-being and encourage a healthy lifestyle within smart cities. It seeks to discover "small joys," providing city dwellers with moments of relaxation and respite.

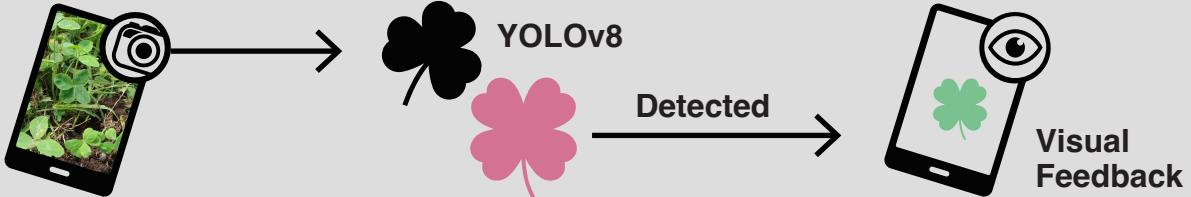

Background

- Digital technology has continually driven us to enhance productivity and efficiency, leading to busier lives.
- Constantly pressured to produce more value in less time, it results in anxiety and restlessness.

Technology

Camera on a Smartphone

How to Use

- 1 Launch the camera on your smartphone and scan the QR code labeled "DEMO."
- 2 From the specified browser (iOS:  , Android: ), Press **START** button.
- 3 Please grant permission to access your camera, Press Allow button.
- 4 With the camera activated, search for a four-leaf clover.
When found, the location of the four-leaf clover will be marked with a circle.
